

Client Hints

Tamas Piros

Client Hints

- Settings from the browser
 - Width, Viewport-Width, DPR (Device Pixel Ratio)
- Disabled by default, to enable:

```
<meta http-equiv="Accept-CH" content="DPR, Viewport-Width, Width">
```

•

Save-Data Header

- Indicates “data saver” mode
- Server side vs Client Side detection
 - Server Side is preferred

```
if ("connection" in navigator) {  
    if (navigator.connection.saveData === true) {  
        // code ...  
    }  
}
```
